Release Notes: The software update will provide functionality/ usability improvements to the features and capabilities of this model. These are as follows:

-added support to CDDA playback to resolve issues of audio dropping out when  
resuming play from a paused state.

-added support for DVD-A playback to resolve issues of tracks repeating.

-added new LtRt 2 channel downmix capability.

-resolved incorrect status display issues for DVD-A.

-added support to resolve the player from locking up out of standby.

-added support for enhanced black levels.

- Disabled 720p/1080i video for component output to comply with Macrovision  
licensing Agreement.

\*\*NOTE: This release is intended to replace the faulty 2.6.6.160.
