Dependencies and requirements for this software update (this info is accessible through pressing: MENU-STATUS->VERSION INFO):

Release Notes: The software update will provide functionality/ usability improvements to the features and capabilities of this model. These are as follows:

- added full CAN-Bus support. Status information and operational control are now available.

- disabled Large Numbers volume display when unit is set to SSP mode. (volume will be locked at line level)

- This software release is a stage in the CAN Bus launch process. Details relating to the official CAN-Bus launch will shortly be posted on the Classe website www.classeaudio.com. CAN-Bus will not be fully operational before this point.
