

Firmware downgrade feature for:
 Oppo BDP-93/95
 Oppo BDP-93EU/95EU

THIS METHOD ONLY WORKS WITH HARDWARE MODIFIED PLAYERS, AND ONLY WITH PLAYERS WITH ONE OF THE FOLLOWING REGIONFREE HARDWARE MODS FROM BLURAYCHIP OR ONE OF THEIR DISTRIBUTORS :

STANDARD/BASIC MOD:	PRO MOD:
	

(The PRO mod revision / usb flash type or firmware is not critical)

THE ABOVE MENTIONED HARDWARE MODS **WILL INJECT SPECIAL KEYS** TO DECRYPT THE FIRMWARE CURRENTLY INSTALLED IN THE PLAYER. ATTEMPTING TO USE THIS METHOD ON PLAYERS WITH OTHER BRANDS OF HARDWARE MODS, **WILL RENDER YOUR PLAYER USELESS !**

ALTHOUGH THIS IS VERY SAFE AND THOROUGHLY TESTED WITH THE ABOVE MENTIONED MODS, ALL FEATURES DESCRIBED HERE ARE ON YOUR OWN RISK !

Please note that only a usb flash media can be used for the firmware update.

STANDARD/BASIC MOD:	PRO MOD:
<ol style="list-style-type: none"> 1. Disconnect ethernet, and any USB devices, and power up the player with no disc in the tray. 2. When it displays "no disc" wait for approx 4-5 seconds, and press GREEN-2-2 on the remote. 3. Press "setup" on remote. 4. Scroll down to "Device setup" 5. Place the bar on "Firmware Upgrade" 6. Press RED-8-5-2-0 on the remote. 7. Exit menu again by pressing setup button, NOT the ok button. 8. Now you can downgrade the firmware with the use of a usb stick, just follow the usual instructions from Oppo. 	<ol style="list-style-type: none"> 1. Disconnect ethernet, and any USB devices, and power up the player with no disc in the tray. 2. Press "setup" on remote 3. Scroll down to "Device setup" 4. Place the bar on "Firmware Upgrade" 5.
